

Let us introduce ourselves.

We are Doorzaam. The fund for agency workers.

All agency workers in the Netherlands should be able to enjoy doing their job competently in a healthy and safe way. We believe that everyone working in the temporary employment agency branch should have the opportunity to grow and to learn what it means to have a healthy and safe work environment.

We support agency workers throughout their careers.

We are on hand to help agency workers work safely and stay healthy throughout their careers. We also offer, at no extra cost, a range of allowances, so that agency workers can always continue to develop themselves.

We do this by providing, among other things, allowances such as a Training Budget (Scholingsvouchers), a Job Opportunity Budget (Kansberoepbudget) as well as a Development Budget (Ontwikkelbudget). This way, we provide agency workers with support at any point in their career.

Development Budget

As an agency worker, you naturally want to be healthy, you want to work safely, and have the opportunity to grow and develop yourself.

With the help of the Development Budget, Doorzaam offers you a way to enjoy going to work and to keep it that way.

You get to work with a coach and discuss what might help you achieve this. Consider, for instance, a course, financial coaching or even lifestyle advice. We provide a budget for this.
